

## Attachment for SVE Truck

SVE Truck Attachments - Svetruck initiated business in the year 1977 with a clear vision of what sort of company they wanted to be and what particular type of merchandise they wished to make. They designed a service-friendly, reliable and durable forklift. Svetruck specializes in creating lift trucks which allow the person operating it to operate well within difficult environments. Svetruck believes that being capable of executing successful and safe material handling in the best possible way really helps in order to contribute to a positive work atmosphere.

Home to their manufacturing facility in Ljungby, they create machinery such as container handlers, forklifts and log-stackers. To this day Svetruck is proudly supplying lift trucks and other forklifts to all their global customers.

Svetruck stays focused on the future and remains dedicated to safeguarding their strong status for reliability and durability. Their basic approach to solid experience, high quality and more than thirty years of knowledge in the area, means they can offer the market brilliant solutions for all of their material handling needs.
