

Clark Forklift Parts

Clark Forklift Part - Performing globally, there are currently 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in service in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive brands of forklifts, with components covering more than 120,000 specialized parts for all of its automated equipment. Your local Clark Seller is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a very impressive intercontinental support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark has a relentless objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants because this method is extremely economical and allows for minimal use of resources. Established to ensure maximum efficiency, this system is designed to discover and acknowledge the most effective methods for production facility stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The new value engineering agenda combines innovative product improvement and offers improved client support and service within the industry.
