

Advance-Nilfisk Part

Advance-Nilfisk Parts - Think about how tedious it would be to tidy up your home after throwing a large party, with no help from cleaning machines. In the past, the time carpets and upholstery had the dirt beat out of them manually; brooms, cleaning cloths and brushes were the leading cleaning supplies of that time.

P.A. Fisker, the man who founded Nilfisk-Advance, was an electrical engineer who loved working with electrical motors. Establishing the company in 1906, he began to produce motors so as to drive fans, machine tools, coffee grinders and drills. Mr. Fisker's vision from the start was to have a worldwide company advertising goods worldwide.

The Nilfisk C1 was a remarkable breakthrough for the cleaning industry. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and can be operated by a single person. This invention came in a time where numerous cleaning machines were very big and needed at least 4 operators, thus, the Nilfisk C1 changed everything and developed the manner we clean forever. The brain behind these very first cleaning equipment remains unparalleled. Cleaning equipment provide an excellent solution to an existing crisis; things get filthy and have to be cleaned on a regular basis, without too much effort.

Gradually, the company Nilfisk-Advance expanded through the years. In the the early part of the 1980's the business developed more rapidly when the business became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance ahead within the industry, trying to be an active international player in manufacturing professional cleaning equipment. Nilfisk-Advance is currently represented in all parts of the globe due to steadily obtaining many small companies in order to develop their product portfolio and presence in new markets. They are proud to present different cleaning solutions to suit each and every requirement.
