

Pulp Clamps

Pulp Clamps - There is a wide range of lift truck accessories available so as to make the devices much more effective. A snowplow attachment can be mounted to the front of the lift truck. A scoop bucket can be helpful when the task requires transferring sand, gravel, soil or snow. A double block handler permits the individual operating the forklift to lift\carry 2 loads and pile them side-by-side. Several of these attachments are really excellent for light to medium tasks.

Among the lift truck accessories, referred to as a package lift clamp, allows for the moving and lifting of really heavy pallets. Pallet crane forks are also used in order to move and lift pallets by using an overhead crane. A drum clamp attachment is useful for transporting very heavy drums from place to place without having to use a pallet. Lift truck mounted hoppers enable materials to be transferred and dumped without having to handle it by hand. These hoppers when the bumper is released are self dumping.

There are also attachments obtainable which can transform the forklift right into a commercial broom or mop. Those attachments are ideal for cleaning boat docks, storehouse floors and parking areas. Lift truck mounted platforms are available geared up with twin entry doors and could be hooked up to move personnel from one area to another. The mounted platform attachment is great for reaching places which could be hard to access, particularly when you have merchandise or materials stored in out of the way areas or way up high.

It is a versatile alternative to put in forklift attachments that can instantly transform a lift truck into a mobile crane unit. This equipment is very useful when it comes to moving loads which could be unbalanced or tricky. This attachment could either be telescopic, mounted on the carriage itself, or be attached or even forklift mounted.
